

# IHNC LOCK REPLACEMENT GENERAL REEVALUATION REPORT

## CHALLENGES

- Construction of the project is strongly opposed by local residents
- High risk for future litigation due to public perception of project impacts
- Will coordinate with MVD to assess the necessity of a 3x3x3 waiver

## STATUS

- Based on the economic modeling results the TSP is 110 ft x 900 ft x 22 ft with a BCR of 4.78.
- Draft report was released to the public 6 Jan 17
- Public Review currently ends 14 Mar 17
- \$550K received in FY17 Pbud to continue the GRR

## PATH FORWARD

- Ensure communication is maintained with local residents and stakeholders
- St. Bernard Public Meeting – 23 Feb 2017
- Orleans Public Meeting – 7 Mar 2017
- ADM – April 2017
- Chief's Report – June 2018
